

# Curated Lists

# the ultimate travel planning tool

Curated Lists are your reliable travel planning companion. It's fast and easy to save your top-picks and share them with clients at any stage of their booking journey, from the initial planning conversations to in-destination adventures.

## Why use Curated Lists?

#### **PERSONALIZED PLANNING**

for clients by creating Curated Lists that are unique to their travel dates and interests. Pro tip: create unique titles for each Curated List so you can tell them apart.

#### SIMPLIFY THE PLANNING AND BOOKING PROCESS

by saving experiences and referring back to them at any time.

#### **BOOK AND EARN WITH EASE**

earn commission on all experiences by booking for clients or with the "Share with Client" link.

## **Curating lists is simple**

# 3 easy ways to create lists:

- When you're browsing products, you select that **heart icon** and create a new list or add to existing lists.
- When you're in your **list library** you can create a 'new curated list'
- When you move an item in an **existing list,** you can make a new list or add to another existing list.

#### Stay in the know:

Add client travel dates to a list to track upcoming trips and remind them to book experiences closer to their travel dates.

**See availability:** Your list will automatically filter out experiences not available when you add dates, so you only share experiences accessible during your selected timeframe.

**Book and earn with ease:** Earn commission on all experiences by booking for clients or sharing your "share with client" link that's included on every experience
